HOTELS ASSOCIATION OF SASKATCHEWAN

Proudly Presents

THE JUDGES

The Regina Exhibition Association Ltd., is extremely pleased to obtain the services of two of the most qualified judges in North America today.

Mr. D. P. Lenehan from Southern Pines, North Carolina, will be adjudicating the Hack, Hunter and Jumper Divisions. Mr. Lenehan has judged every major show in the United States and Canada, including Madison Square Garden and the Royal Winter Fair in Toronto.

Our Western and Harness classes will be judged by **Mr. R. D. Moggach** of Waterdown, Ontario. Mr. Moggach has owned and shown Western horses, and American Saddle Breds both under saddle and as fine harness horses. He has judged the C.N.E. and many other fairs.

FACTS ABOUT THE HORSE SHOW

There are several types and breeds of horses and ponies that make up the various classes at horse shows. Here is a brief description. We hope that this will enable those spectators unfamiliar with the horse show to understand and receive more enjoyment from the show.

THE AMERICAN SADDLE HORSE

The American Saddle Horse has been hailed as the world's most beautiful horse by its host of admirers and also one of the most versatile. It was developed by the early pioneers who desired a utility horse of beauty, easy gaits, good disposition, substance, quality, and stamina.

American Saddle Horses are shown in three major divisions, five-gaited, three-gaited, and fine harness.

THE FIVE-GAITED HORSE

The five-gaited horse is the aristocrat of the show ring and is considered by many as the most spectacular and exciting in a horse show. They wear a full mane and tail and are shown wearing quarter boots that protect the front feet of the horse when he is performing his gaits. They are shown both ways of the ring at the three natural gaits of this breed the walk, trot, and canter and the two man-made gaits, the slow gait and the rack.

The trot is a two-beat gait that should be square and bold, with natural high action, and speed is desirable if done in form. The canter should be slow,

rhythmic and done with rocking chair smoothness and motion and executed on the correct leads (left lead when going to the left, right lead when going to the right). The slow gait should be a high

methodical gait, done very slowly, and with high action particularly in front.

The rack is a four-beat gait, and free from any lateral motion or pacing. The knee and hock action should be snappy and speed is desired if done in form. The walk should be done in an elastic step, prompt, primp, and in an alert manner.

THE THREE-GAITED HORSE

The three-gaited horse is required to perform the three natural gaits, the walk, trot, and canter both ways of the ring. The three-gaited horse is shown with clipped mane and tail. The three-

gaited horse should execute his gaits in a slow, collected manner, with high action, carry his head high, have an alert ear, and an over-all air of brilliance. His walk should be prompt, showy, done cheerfully in correct form and at about four miles an hour without any dancing or fretting. The trot is the gait most emphasized and must be true, high in action, well collected, and excessive speed is not desired. The canter should be slow, rhythmic, and done on the correct leads.

THE TENNESSEE WALKING HORSE

The Tennessee Walking Horse is a breed that was developed in the south by large landowners who wanted an easy riding horse to carry them over their plantations. The Walking horse is known for his easy riding gaits and good temperament, making him known as the "World's Greatest Pleasure Horse".

The Tennessee Walking Horse is shown at the three natural gaits of this

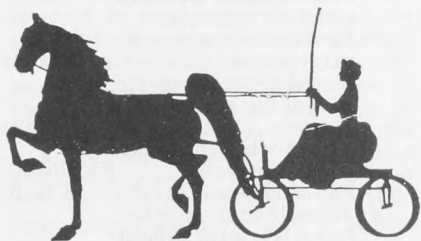

breed, the flat-footed walk, the running walk, and the canter, both ways of the ring. The flat-footed walk should be true, square, done with boldness, and

with a speed of from three to five miles per hour. The running walk is a smooth, gliding four-cornered gait that the horse does with speed but always in form. In this gait the hind foot over-reaches the print of the fore foot from twelve to twenty-four inches, giving the gliding motion that is so easy on the rider. In this gait the horse should have good head motion. This is the most important gait of the Walking horse. The canter should be smooth, slow, straight on both leads, with a rocking chair like motion.

THE FINE HARNESS HORSE

The fine harness horse is shown at two gaits, the walk and trot, both ways

of the ring. He is shown to an appropriate four-wheeled vehicle and carries a full mane and tail. A fine harness horse should be exactly as the name implies, beautiful, fine, and should show exceptional brilliance and personality in the ring. He is shown at an animated walk and an airy park trot showing lots of motion both front and behind. Extreme speed is penalized.

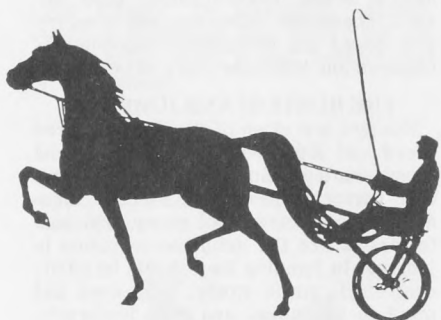

THE ROADSTERS

The roadster is the speed horse of the

show ring. He is usually of the Standard-bred breed that are noted for their speed at the trot and pace. However, in the show ring they are shown only at the trot.

The chief gait of the roadster is the trot, but he may be asked to walk in the show ring. They are asked to trot at three different speeds; the jog, road gait, and trot at speed. At all speeds they should work in form, with straight and true action. Animation and show ring presence should characterize the road horse especially at the jog and road gait.

Roadsters shall enter the ring in a clockwise direction at a jog, are usually asked to road gait, then turn to a

counter-clockwise direction and asked to jog, road gait, and trot at speed. A road horse should be able to go at full speed both ways of the ring as a judge may require them to do so. He should stand quietly when lined up.

THE HACKNEY PONY

The Hackney is a breed of carriage horse or pony that originated in England and is one of the oldest breeds in the horse kingdom. The Hackney pony cannot be over 14.2 hands in height.

They are the high steppers of the show ring, with extreme action both front and behind. He should show much brilliance and show ring presence, but still give a picture of sheer daintiness and perfection. The Hackney is shown only at the trot, but in most classes is judged at two speeds, the park pace and then asked to trot on, but never sacrificing form for speed. They are shown to a vehicle called a viceroy.

Custom demands that they be shown with docked tails and their manes braided close to their necks. At the trot the

pony should snap his knees and hocks and his action should be high, straight, and true.

HACKS

Horses in this division can be of any breed, type or size as long as they have natural action. Good training, good balance, obedience, calmness and comfortable paces are demanded. Soundness is required and blemishes may be penalized.

THE HUNTERS AND JUMPERS

Hunters are often of the Thoroughbred breed and are used for fox hunting and cross country riding. In our horse shows their performances over the fences, manners, soundness, way of going, and conformation are the main consideration in judging. In jumping they should be easily controlled, stride easily, keep eyes and mind on the jumps, and jump uniformly.

In judging the performance of a hunter the faults the horse had scored against him must be considered as well as his way of going over the course.

HUNTER JUMPING PENALTY RULES

(Canadian Horse Shows Association)

- (a) Hind touch ½ fault
- (b) Front touch 1 fault
- (c) Hind knock down 2 faults
- (d) Front knock down 4 faults
- (e) Horse or rider falls ... Elimination

It is possible for a fine conformation hunter with a smooth way of going who

has scored a fault to defeat a mediocre individual with an uneven though clean performance.

A jumper may be any type or breed of horse as long as he is willing and able to jump. These horses are judged on performance only. In fact they are really not judged, but scored mathematically for their faults. Style of going and of jumping is not considered. Ties are broken by jump offs. Obstacles can either be raised and/or broadened at the discretion of the management subject to the approval of the judges.

OPEN JUMPING PENALTY RULES

(Federation Equestre Internationale)

DISOBEDIENCES:

The following are considered as a "Disobedience" and penalized as such:

REFUSAL
RUN OUT
LOSS OF GAIT

PENALTIES

- (a) Knock-down with any portion of horse's body 4 faults
 - (b) Knock-down of standard or wing in jumping obstacle without knocking down obstacle 4 faults
 - (c) First disobedience 3 faults
 - (d) Second disobedience 6 faults
 - (e) Third disobedience Elimination
- Disobediences are cumulative not only at the same obstacle but on the entire round, for example:
- First disobedience (run-out at post and rail) 3 faults
 - Second disobedience (circling or loss of gait on the course) 6 faults
 - Third disobedience (refusal at stone wall) Elimination
 - (f) Fall of horse and/or rider ... 8 faults
 - (g) Jumping an obstacle before it is reset or without waiting for the signal to proceed Elimination
 - (h) Showing to the horse any obstacle after entering the arena, or after a refusal Elimination
 - (i) Starting before the starting signal; jumping any obstacle before the start whether forming part of the course or not; loss of course Elimination
 - (j) Exceeding time allowed per second ¼ fault
 - (k) Time limit exceeded ... Elimination

1974 LIGHT HORSE SHOW

THE HARNESS PONY

The harness pony is called the miniature fine harness horse as he resembles the fine harness horse in conformation and way of going. The harness pony was originated by crossing three pony breeds, the Hackney, Welsh, and the Shetland. The harness pony has high action and gracefulness of the Hackney; the desired conformation, spirit, and style of the Welsh; and the Shetland gave manners and size as the harness pony cannot exceed 50 inches in height.

The harness pony is shown to a vice-roy or a miniature fine harness buggy, carries full mane and tail, and is shown both ways of the ring at the park trot and at a more animated or faster gait designated as "drive on or at will". The harness pony should show much brilliance and show ring presence and much the same trot as a fine harness horse only with more snap to the knees and hocks.

EQUITATION

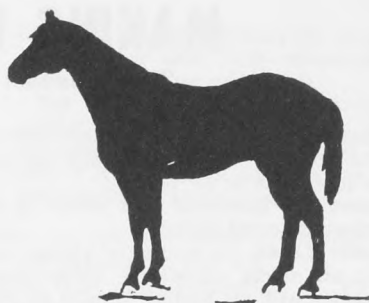

Equitation or horsemanship is a division open to riders that have not reached their 18th birthday and are amateurs. All classes are judged solely on the rider's style and ability to control his horse. The horse is not judged or rated in this division.

Certain fundamentals of equitation are rigidly observed in judging. Riders are required to canter their horses on the correct lead, and are sometimes asked to work individually and there are several tests a judge may choose. Some of the most frequently used are; pick up reins, dismount and mount, figure eight at a trot and/or a canter, using correct diagonal and canter lead, ride without stirrups, and change horse and ride. Some judges ask the riders to answer questions on anatomy, tack and equitation.

THE QUARTER HORSE

He is not quarter of a horse or a quarter of anything. He is the fastest piece of horseflesh in the world, for a quarter of a mile. Hence his name, one he has borne almost since the first colonists landed in Virginia. He was bred for two purposes, to work and to race, and he excelled at both.

Body short but deep; legs rather short and well tucked under him on good feet;

strong bones; big muscles; well balanced whether scrambling, pivoting, or slamming on the brakes. Though rarely over 15 hands high, he often weighs 1,200 pounds. An intelligent, willing, obedient workhorse who knows his job and is proud to do it well without fuss or excitement.

REINING HORSE

The Reining Horse, almost always a registered quarter horse, is shown individually, over a required pattern. Each

horse is judged on the neatness, dispatch, ease, calmness and speed with which he performs, with no unnecessary aid from the rider. This class shows the agility and instantaneous response of the animal to the rider's command.

WESTERN HORSE

The Western Horse is not a standardized breed but has been developed on the plains of this country for use in the breeding of cattle. He is bred and trained for speed at the gallop, quickness in turning, flexibility, extreme hardiness and stamina.

MAKING HORSE SENSE

The Words That Count About the Mount

Amateur: One who rides or drives for the love of the sport and not as a profession or for profit.

Canter: A three-beat gait which is a slow, collected gallop.

Canter Leads: In equitation classes as in all saddle classes the horse must canter with his leading forefoot on the inside of the circle he is describing. This requires a stop and change of leads at the junction of the circles during a figure eight.

Colt: A male horse under 4 years.

Conformation: The comparison as to physical characteristics of a given horse to an ideal perfect specimen of his particular breed.

Diagonals: In equitation classes the rider is required to post up and down with the action of the horse's front leg which is next to the ring fence. In figure eights he is judged on his ability to post the diagonal on the outside of both circles. This requires changing the diagonal at the junction of the circles during a figure eight.

Filly: A female horse under 4 years.

Fine Harness Horse: A fine harness horse carries a full mane and tail and is judged at the walk and trot for action and general brilliance of appearance. This horse should have free movement of the shoulders and high knee action, as well as high hock action with legs well under the horse.

Five-Gaited Horse: The five-gaited horse is shown with full mane, tail, and forelock. In addition to the three natural gaits, walk, trot, and canter, he is required to do two more; the slow gait and rack.

Foal: A newly born horse.

Gelding: A male horse that has been castrated to make him more tractable.

Habit: The costume worn by the rider which has been standardized by custom according to the time of day and type of horse being shown.

Hand: The unit by which a horse is measured: 4 inches.

Horse: A mature male specimen of the Equine race, over 14 hands 2 inches.

Hunters: A hunter is generally shown over a course of obstacles placed in the show ring to simulate conditions encountered while fox hunting. A hunter should go over the course at an even hunting pace, galloping with long easy strides, close to the ground, without excessive motion. Approach each fence perfectly straight and jump in stride without hesitation, land and get away all in one motion and go onto the next fence. A hunter should also possess good manners.

Jumpers: Jumpers may be of any breed or type. The horse's manner of jumping is not considered, nor is his soundness as to wind, limb or eye. If he negotiates the entire course of obstacles without touching any, does not run off the prescribed course, nor refuse to jump an obstacle, his score is perfect. Winner of each class is the horse jumping the course with the least number of faults.

Mare: A mature female.

Novice: A horse which has not won three firsts in the class in which he is being shown.

Open Class: One in which any horse of the specified breed is eligible, regardless of age, sex, number of firsts, or amateur or professional status of the rider.

Rack: One of the gaits of the five-gaited saddler. The rack is executed in four-beat cadence, each foot striking the ground separately. It is very fast and smooth with much elevation.

Ribbon Colors: First place, red; second, blue; third, white; fourth, yellow; fifth, green; sixth, pink.

Roadster: A horse bred especially for trotting. Speed is essential, but he must possess beauty and symmetry of form and motion. He must have a clean gait, soundness, and perfect manners. He is shown under saddle, hitched to the two-wheeled bike or to the speed wagon or skeleton wagon.

Running Walk: A quick, four-beat gait similar to the rack but much slower and with less elevation. It is this particular gait which is characteris-

tic of the Tennessee Walking Horse.
Slow Gait: A stepping pace or slow rack which is performed as one of the artificial gaits of the five-gaited horse.

Soundness: Physical fitness of the horse. A sound horse is free from physical defects of any type.

Square: In all classes gaits of the horse must be even and balanced as well as true, and these constitute the qualities of squareness.

Stake: A championship or preliminary to a championship class.

Stallion: A mature male.

Strip: To remove the saddle from a horse so the judge may more completely check conformation. The judge usually requests that the horse be stripped only in the stakes.

Tack Stall: Exhibition stalls which the exhibitor decorates with trophies, ribbons and equipment.

Three-Gaited Horse: A three-gaited horse is shown with a roached mane and tail and does the three gaits, walk, trot, and canter.

His walk should be flat-footed and collected, with head held erect. The trot is a two-beat gait, the diagonal

front and hind feet striking the ground at the same time, with considerable show of animation and action.

The canter is a collected and slow-rolling gallop. The horse must take off with either foot leading at his rider's command. In the ring the inside foot should always lead.

Tie: To rate the horse as he finishes in a class, as 1st, 2nd, 3rd.

Walk-Trot: To distinguish a three-gaiter from a five-gaiter, this term refers to an American Saddlebred horse that walks, trots and canters only.

Walking Horse: The walking horse was developed for cross-country riding on plantations. There are three gaits: the flat-foot walk, the running walk, and the canter.

The famous running walk, a natural gait, is a diagonally opposed foot movement. As the speed increases the hind foot usually oversteps the front track from a few to as much as 18 inches. In this gait the horse nods his head and sometimes swings his ears and snaps his teeth in the rhythm of the stride.

A MESSAGE FROM THE MAYOR

On behalf of the members of City Council and the citizens of Regina, I am happy to extend a warm and sincere welcome to all visitors and participants attending the 1974 Regina Horse Show. I am pleased that this annual event continues to provide young people with the opportunity to learn the skills of horsemanship and to participate in equestrian events.

The City of Regina has much to offer and we invite you to take full advantage of the very fine facilities our City has for your convenience and enjoyment during your stay with us.

To the spectators, I know you will be provided with excellent performances and entertainment. To the participants, I offer best wishes and many rewards in the future.

H. H. P. Baker,
Mayor.

SET YOUR HAND TO THE PLOW

There is just one way to make this land produce for you, and that is to set your hand to the plow, make your furrow, plant and care for your seed.

The harvest is your reward. In the same way is earned your harvest of security and the better things in life. Get your hand to the Co-operative Plow by becoming a member of your local CO-OP.

SHERWOOD CO-OP

FRIDAY AFTERNOON (Continued)

2:50: CLASS 86 — JUNIOR — WESTERN PLEASURE. Open to children who have reached their 11th but not their 14th birthday as of January 1, 1974. Horses to be shown at a flat-footed walk, jog, lope and hand gallop both ways of the ring on a reasonably loose rein and on the correct lead at all times. Extreme speed should be penalized but horses should exhibit reasonable speed and be well under control of rider at all times. Horses should have reasonably good quick stop and should stand quietly after loping or hand galloping. Horses should back readily with minimum pulling on reins. Judged on manners and performance 60%; conformation 30%; appointments 10%. Prizes: 1st, \$12; 2nd, \$10; 3rd, \$8; 4th, \$6; 5th, \$4; 6th, \$2.

You can't beat the system

Butler buildings are systems buildings. Which means we build them to pre-designed components that fit together neatly and quickly on the job site — saving time and money. And because they're systems they also have the kind of built-in flexibility

that allows your building to grow with your business. With everything worked out in advance you're dealt a pat hand. And that's hard to beat, anytime.

For more information, give us a call.

Let us build you a Butler Building
